Rhona Mitra plays a desperate vampire housewife.

The Gates

ABC, June 20, 10 p.m. ET/PT | ★★★★★

DRAMA

In the premiere of this suburban melodrama with supernatural undercurrents, an unhappy housewife (Rhona Mitra) tells her husband she's going to start filling up her calendar with activities—perhaps keeping busy will prevent her from succumbing to vampire lust and draining the blood of handymen and contractors who cross her path in the middle of boring afternoons. This will also spare her husband the task of hauling out the bodies after dark as if they were heavy trash cans packed full of recyclables.

If *The Gates* played this domestic predicament as comedy, the show might show some more promise. Instead the tone is teasingly ominous and way too familiar. This is a gothic fantasy where all the fun has been landscaped clean away.

AFTER THE BUBBLES

● The late star's favorite primate, still living, is the subject of a weirdly touching Animal Planet special, *Michael Jackson & Bubbles: The Untold Story*, on June 22. Michael's sister LaToya visits him in his ape retirement home and sobs. Bubbles sits there—feeling what? ★★★★★
